Sarasota, FL 34237

Dear Ms. Natrillo:

I hope this letter finds you and yours in the best of health and spirits.

As per our conversation of April 22, 2008, I am writing to request a copy of the results of your investigation concerning Lutheran Services Guardianship Program and the illegal measures employed by them to obtain guardianship of my mother and also the continued emotional abuse my mother has to endure under said guardianship.

Since the very beginning of this unnecessary and unwarranted fiasco began my mother's rights have been continually violated and she has had to endure being held incommunicado and listen to derogatory, insulting comments about her family from her guardians. She is nearing 90 years old. She is unnecessarily medicated (4 different anti-anxiety and anti-depressant pills). She has no quality of life and this atrocity must end.

I do hope that this investigation goes further than it has in the past. Once Lutheran Services states their position the case is closed. I wish to have the opportunity to refute any and all allegations made by the agents who represent Lutheran Services. I have documentation to back up my claims. Not being able to afford an attorney should not be the justification for her continued internment in an institution where she does not want to be or ever needed to be. After working all her life in factories she should be able to enjoy her end of life wishes that she worked so hard to obtain.

Thank you for your time.

Sincerely,

Pat Benabe
